ACTIVITY REPORT

1. **Title of Activity:** "Sangali-Kolhapur Flood Relief Fund"

2. **Date & venue:** August 2019 at IICMR, Nigadi Campus.

3. **Outcomes of activity:**

Students understand the seriousness of the situation & they also understand their roles in responding this critical situation. This drive unites the students for noble cause.

4. **Description of activity:**

Floods are the major disaster affecting many countries in the world year after year. Flash flood was one of the most common and destructive weather related phenomena. It causes damage to lives, natural resources and environment as well as the loss of economy and health. Every year, the floods leave a trail of destruction, washing away villages, submerging paddy fields, drowning livestock, besides causing loss of human life and property in billions.

The spectre of floods hovers once more over Kolhapur and Sangli districts in western Maharashtra following incessant rain in the catchment areas throughout last week. This has resulted in a massive discharge of water from major dams, spiking the water level in the Panchganga river, which courses through Kolhapur, and the Krishna river that passes through Sangli. Residents living in the vicinity of these rivers in the two districts have been asked to move to safer zones by the district administrations.

On Monday, Koyna dam (in neighbouring Satara district) was almost filled to the brim with its present water stock at 103.08 thousand million cubic feet (tmcft), while Warna dam in Kolhapur is filled to capacity, having a water stock of 34.05 tmcft.

MBA@IICMR/Academic_Social_Responsibility_2019-20/SWC13

Despite showers considerably reducing in intensity on Monday, the discharge was still on from all major dams, including Koyna (45,681 cusecs till Monday evening), Radhanagari (4,256 cusecs), and Warna (13,368 cusecs).

But an ongoing discharge of 2.5 lakh cusecs from Almatti dam in north Karnataka (adjoining Kolhapur) has done much to stave off fears of flooding in Sangli and Kolhapur for the moment. But the authorities not taken any chances with both districts yet to fully recover from a deluge which cost at least 35 human lives and killed hundreds of livestock besides damaging property and ruining crops to the tune of crores of rupees. Four National Disaster Response Force (NDRF) teams from Pune are on standby in both these districts, with two deployed in Kolhapur (one each in Shirol and Jaysinghpur tehsils) and the other two in Sangli (one each in Islampur and Miraj taluks). Even then, more than 750 persons from 350-odd families and hundreds of livestock, mainly in Shirol and Karvir tehsils, were relocated to safer areas on Sunday, while another 20-odd families in Sangli district were moved on Monday, according to Kolhapur and Sangli district administrations.

To help the victims in the Kolhapur & Sangali area the MBA@IICMR Institute taken the initiative to provide in terms of kind & money.
